A Note from the Agent -

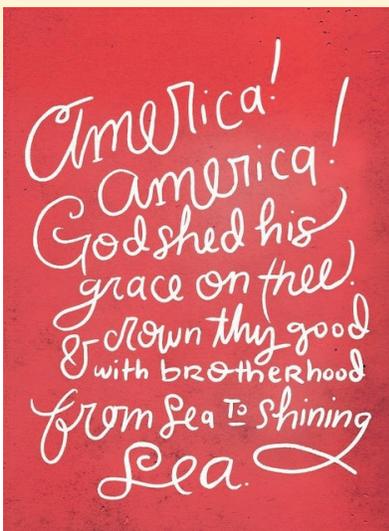

Beth Johnson

Each of the **Essential Elements of Positive Youth Development** is vital to the growth and development of youth. It is the combination of the elements that creates a positive environment for youth development to occur. By intentionally including these elements in a 4-H club or project meeting, youth have the ability to participate experientially in activities and events, feel nurtured in a safe environment, master new skills and abilities, and feel that they are contributing to their club and community in a positive way. To help us gain awareness of how to incorporate the Essential Elements, we will explore each element in the next few monthly newsletters.

Have a future orientation is when you have something to look forward to. In a simple sense, it means going to camp and seeing the possibilities of becoming a CIT and then camp counselor. It is about having a chance to try out new roles in a safe environment. It also encompasses learning skills that are applicable to a chosen career path. 4-H participation should directly (through developing an interest in a project that leads to a career) and indirectly (by developing good communication and teamwork skills) prepare youth for future careers.

We want to encourage youth to gain independence which will improve self-confidence in one's ability to succeed. One of the most difficult tasks for youth is learning to set attainable goals and define realistic strategies to reaching them. As adults, we have more practice at this and we also set goals for our youth. They may be goals that if we help them develop into responsible young adults they may go on to college and/or obtain a good paying job so they may be independent of us.

(Continued from page 1)

One challenge for adults is helping youth recognize and explore the multitude of opportunities available to them and to match these with their skills, interests, and aptitudes. Being “futuristic” means making decisions today based on a positive belief about the future. Positive environments provide opportunities for young people to see themselves in the future which allows for the development of independence and self-responsibility.

Ways that adults can support youth in gaining independence and responsibility include:

There is always a moment in childhood when the door opens and lets the future in.

—Graham Greene

- Encouraging youth to think positively about their future
- Helping youth set goals for themselves 5-10 years in the future that are challenging, yet achievable
- Providing opportunities for youth to realize some of their goals through project work and club work
- Giving youth opportunities to develop ideas and see them through to completion
- Creating club excitement about a future activity or opportunity
- Acting more as “guides on the side” rather than the “sage on the stage”
- Avoiding the tendency to solve problems for youth.

FAIR EXHIBITING

WHOSE EXHIBIT IS IT . . . REALLY?

Fair exhibits are to be made by the youth exhibiting them. The exhibit should be the result of learning in the project throughout the year. Youth themselves, and what they have learned, are far more important than the items they make or grow.

Parents, please do project work with your child, not for your child! Your child needs your interest, enthusiasm, advice, and help, but with that support they need to do the project themselves.

Please remember, youth do not gain if they:

- ◆ Purchase an item and show it as though it is a project they have made.
- ◆ Show a project made by another family member.
- ◆ Bring plants they did not grow, vegetables they did not plant or weed, animals they did not care for, etc.
- ◆ Exhibit a project they have shown in a previous year.

Parents - please "sit on your hands," allowing your child to make and exhibit their own work, even if it does not meet your standards or quality of excellence.

SOME FACE-TO-FACE JUDGING QUESTIONS

- ★ What do you like most about this project?
- ★ What do you like least about this project?
- ★ What have you learned in this project?
- ★ What would you like to learn more about in this project?
- ★ Where did you get the idea for this exhibit?
- ★ Where/how did you learn to make this exhibit? Who helped you?
- ★ What was the easiest part of making this exhibit?
- ★ What was the most difficult or challenging part of making this exhibit?
- ★ What would you do differently if you were to make a similar exhibit again?

TYPES OF FAIR JUDGING

Face-to-Face Judging. Face-to-face judging of certain fair projects is performed to help exhibitors learn the strengths and weaknesses of their project directly from the judge. Exhibitors report to the judge with their projects at the designated time. They meet face-to-face with the judge, who learns more about the work the exhibitor put into the entry while the judge evaluates it. Exhibitors then receive a ribbon for the quality of the exhibit & knowledge of their project, as well as new information they can use to do better next year. Cloverbuds will receive a Participation Ribbon for all projects judged.

Danish Judging. The Danish system of judging provides more exhibitors a chance to receive a ribbon for their entries. Instead of placing only the best four exhibits and giving them a blue, red, white, or pink ribbon (like in Open Class) all entries are placed. All entries receive a premium and ribbon. The number of blue, red, white, and pink ribbons a judge hands out in any color group depends on the number of entries in the class. For example, if there are 8 entries in a class, up to 2 can receive a blue rating, up to 4 red ratings, up to 6 white ratings, and up to 8 pink ratings.

Conference Judging. Conference judging is a combination of face-to-face and Danish judging. In conference style judging, the exhibitors and exhibits come before the judge by Class. The judge may ask youth questions about their project and use the knowledge as well as the quality of the exhibit to place the entries according to the Danish method of placing.

WISCONSIN 4-H CENTENNIAL

Wisconsin 4-H turns 100 years old this year! For news and ideas of how to celebrate check out the Wisconsin 4-H Centennial website at <http://blogs.ces.uwex.edu/4hcentennial/2013/11/06/100-ways-to-celebrate-the-wisconsin-4-h-centennial/>..

4-H DAY AT THE WISCONSIN STATE FAIR

We are excited to inform you of another great 4-H Centennial event that will happen this year: Tuesday, August 5, 2014 is 4-H Day at the Wisconsin State Fair! Join us at the central mall area of the Wisconsin State Fair from 9am – 4pm for hands-on, fun activities and 4-H events.

Our day will feature fun, free activities presented by Wisconsin 4-H and UW-Extension specialists, educators and volunteers. We'll also have a place for 4-H alumni to reconnect, an opportunity for visitors to tell their 4-H stories, and much more!

Paint the streets green with 4-H members, leaders, alumni and supporters wearing green or 4-H shirts.

Join us at 10+ different activity stations for hands-on learning fun. Some of the stations include art, natural science, community service, food and nutrition, technology, animal science, and much more. Take part in our challenge to visit every station and you will create a colorful, fun key-chain to take home.

Enjoy performances by the Wisconsin 4-H Showcase Singers and county 4-H groups throughout the day.

Are you a proud 4-H alumni or a current 4-H member? Then we would have you tell us your 4-H story. It could be your favorite 4-H memory, talking about a

much loved project, and explaining the impact that 4-H had on your life. We want to hear about your 4-H experience. Stop by the tent to record your story with UW-Extension videographers.

Draw a picture, wish 4-H "Happy Birthday", or sign your name on our graffiti wall that will be displayed throughout the 2014 Wisconsin State Fair.

Are you a proud 4-H alumni? Stop by the alumni zone table to pick up your very own souvenir and learn about being involved in the 4-H program as an adult volunteer.

At 2:00pm, join the 4-H Rally followed by the State Fair Parade.

Visit <http://blogs.ces.uwex.edu/4hcentennial/4-h-day-at-state-fair/> for more information.

CAMP COUNSELOR TRAINING DATES!

All meetings will take place in the Government Center in the Extension Office, Room 17 (basement) unless otherwise noted.

Monday, July 7: 5pm - 8pm

Sunday, July 13: 6pm - 8pm (final meeting before camp)

All will be mandatory for CITs and summer camp counselors.

4-H News

YOUNG EAGLES FLIGHTS

August 23 | Burnett County Airport, Siren WI

Since 1992, Young Eagles flights have been safely conducted in nearly every type of general aviation aircraft, from light planes to business jets, and everything in between.

What is EAA?

EAA, the Experimental Aircraft Association, is an international aviation membership association founded in 1953 and headquartered in Oshkosh, Wisconsin. Local chapters are located in all 50 states and many countries. Members are aviation enthusiasts of every age group, including many airline and commercial pilots, engineers, business people and even astronauts. They enjoy all types of airplanes, including "experimental" aircraft, those aircraft built by individual craftsmen, rather than in a factory. "Experimental" refers to the category of aircraft designed by the FAA for these types of airplanes. Similar to standard category aircraft, Experimental aircraft are inspected and certified airworthy by FAA.

Why was the EAA Young Eagles program developed?

The EAA Young Eagles Program was developed in 1992 to welcome young people into the world of aviation. Aviation is exciting and vital to our nation's future and the best way to convey that message is to actually experience flight in a first-hand setting.

What do you hope to gain by taking my child flying?

Each Young Eagle will experience a safe and enjoyable flight that will give them new perspectives on the world and life in general. Young Eagles program participants will understand that an indi-

vidual's potential is unlimited and for them, the sky is the limit!

Who are the pilots?

The pilots participating in the Young Eagles program are local members of EAA who are volunteering their time and aircraft to make your child's flight possible. Each pilot is licensed by the FAA (or governing organization outside the U.S., such as Transport Canada) and all aircraft are likewise licensed by the government. The flights are conducted according to federal regulations. No aerobatic maneuvers are performed.

How does my child become a Young Eagle?

If your child is between the ages of 8 and 17, you may sign up your child for a flight at the Gandy Dancer Fly In / Drive In on July 26. As a parent, you'll need to complete a Young Eagle registration form that is available from your pilot. They can help you fill out the form and answer any other specific questions you may have.

What will the flight be like?

Your pilot will explain what will happen during the flight. Once in the air, your child will see the earth and sky in a new and exciting way. Most Young Eagle flights last between 15 and 20 minutes. Back on the ground, there will be additional time for questions after the flight. After the flight is completed, the pilot will issue your child the official EAA Young Eagles logbook or certificate.

NATIONAL NIGHT OUT

Tuesday, August 5th, 2014, 5pm-8pm

Crooked Lake Park, Siren

- NATIONAL NIGHT OUT is designed to:
- Heighten crime and drug prevention awareness;
 - Generate support for, and participation in, local anticrime programs;
 - Strengthen neighborhood spirit and police-community partnerships; and
 - Send a message to criminals letting them know that neighborhoods are organized and fighting back.

- EVENTS**
- Meal provided free of charge
 - Games
 - 50/50 raffle
 - Beautiful park setting
 - Fire department, DNR, law enforcement
 - McGruff
 - Fingerprinting
 - Great booths to visit and gather information from service providers in Burnett County

BURNETT COUNTY 4-H will have a National Night Out display called "4-H is the Cure for Boredom".

The display will be staffed by 4-H clubs:

- 5-6pm Wood Creek
- 6-7pm Orange
- 7-8pm Wood River Beavers & Jolly Hs

Summer Intern, Olivia Kopecky, will make the display and invites all 4-H members to share examples of 4-H projects that have cured their summer-time boredom.

DATES TO REMEMBER

July

12 - Crex Photo Club, 10am-noon. (Crex Meadows Wildlife Area)

August

9 - Crex Photo Club, 10am-noon. (Crex Meadows Wildlife Area)

18-23 - Jordan Buck Kinetic Sculpture build, In a New Light Gallery, Webster

CREX PHOTO CLUB

Second Saturday of the month, 10am - noon at Crex Meadows Wildlife Area.

Learn more about digital photography with the Crex Photo Club. Share images taken at Crex Meadows WA and the surrounding area with fellow photographers to learn new techniques.

JORDAN BUCK KINETIC SCULPTURE

2014 is the 100th anniversary of Jim Jordan's harvest of a white-tail whose antler rack measured 206 1/8, a world record for 80 years. The deer was taken south of Danbury near the railroad that has become the Gandy Dancer Trail.

The Jordan Buck Puppet Project is a community art project that is one component of the Jordan Buck Centennial Celebrations.

Artist Chris Lutter and Burnett County volunteers will construct the larger-than-life whitetail August 18-23 at In a New Light Gallery, south of Webster on Highway 35. Chris will also train volunteers to animate the buck so it is life-like in movement.

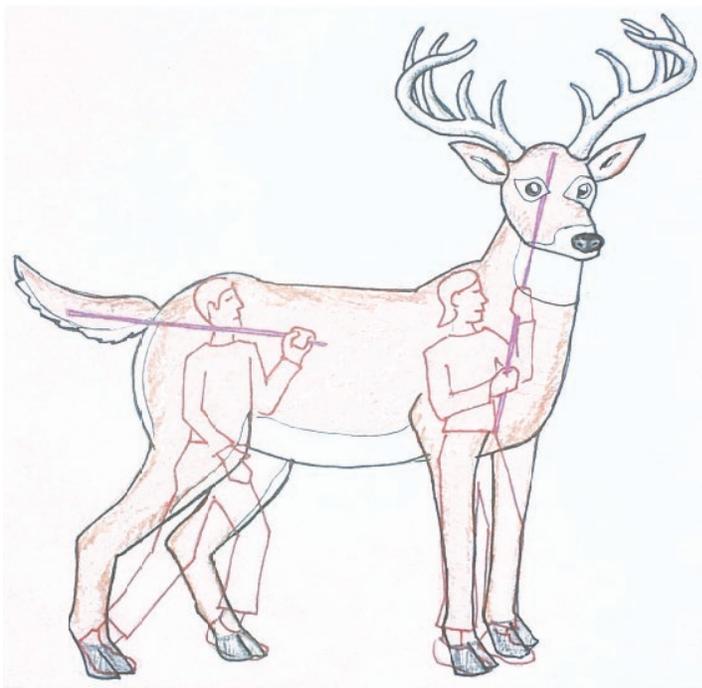

The puppet will be unveiled at the annual White-tails Unlimited banquet on September 20 in Siren and will also appear in other Centennial events. The kinetic sculpture (a three-dimensional moving figure) will then belong to the county to use at community events, parades, public display, and educational purposes.

The process will be filmed for a short documentary.

YOU may get involved in this project by becoming a builder. The Jordan Buck Puppet Project also needs athletic young men and women with

upper body strength, strong legs, and a willingness to learn the performance art of kinetic sculpture to bring the buck to life.

Visit <http://studionorthwoods.com/> for project updates and to sign up to volunteer.

SHEEP AND GOAT RESOURCES

An Illustrated Guide to Sheep and Goat Production

This 20-page, basic and heavily graphic introduction to sheep and goat production discusses animal selection, feeding, breeding and young stock, equipment and handling, and marketing.

Sheep: Sustainable and Organic Production

Introduction to concerns and practices specifically related to sustainable sheep production. Breed selection, controlled grazing, pasture lambing, alternative health management, and innovative marketing of meat and wool products.

Goats: Sustainable Production Overview

Fundamental information relevant to all goats, especially about feeding, reproduction, and health.

Dairy Goats: Sustainable Production

Five major considerations to in planning for dairy goat production: labor, sales and marketing, processing, regulations, and budgeting and economics.

Meat Goats: Sustainable Production

Information specific to meat goat production including selection, breeds,

marketing, feeding, profitability and other topics.

Small Ruminant Sustainability Checksheet

Designed to stimulate critical thinking when evaluating a farm that produces sheep or goats. Use this guide to define areas in your farm management that might be improved, as well as to identify areas of strength.

Dairy Sheep

Is the dairy sheep business and a viable option for your farm? Regulations governing the industry. Production issues, animal health, stock selection, and nutrition issues surrounding dairy sheep.

Tips for Marketing Sheep and Goat Products Series

Two-page tip sheets give concise information to help you weigh options. Titles include:

- Dairy**
- Fiber**
- Live Animals**
- Meat**
- Vegetation Services**

Managing Internal Parasites in Sheep and Goats

New techniques to manage parasites and to prolong the efficacy of dewormers.

Tools for Managing Internal Parasites in Small Ruminants:

Copper Wire Particles

How copper oxide wire particles can be used to treat internal parasites in sheep and goats.

Sericea Lespedeza

How the forage sericea lespedeza can be used to manage internal parasites, and the results of research on how it reduces parasites in small ruminants.

Pasture Management

Techniques for managing parasites on the pasture and for increasing grazing animals' resistance to parasites through improved nutrition.

Animal Selection

Methods and rationales for selecting sheep and goats with improved resistance or resilience to internal parasites.

Call 1-800-346-9140 to request these publications or visit www.attra.ncat.org. All can be downloaded at no cost.

Mechanical Sciences

DATES TO REMEMBER

July

6 - Western Wisc Assoc of Rocketry Meeting, Grantsburg Airport, contact Craig Bowman (*this page*)

24 - County-wide LEGO Project Meeting, 4:45 - 5:45pm. (Government Center)

August

3 - Western Wisc Assoc of Rocketry Meeting, Grantsburg Airport, contact Craig Bowman (*this page*)

28 - County-wide LEGO Project Meeting, 4:45 - 5:45pm. (Government Center)

LEGO PROJECT

The LEGO project homework was to build a self-propelled vehicle with balloon power. This was our hardest project to date and we learned a lot from it! We learned that, as engineers, we have to get suggestions from others, like other kids in the project, our parents, or the internet to make our own ideas work. We also learned that heavy vehicles are harder to move!

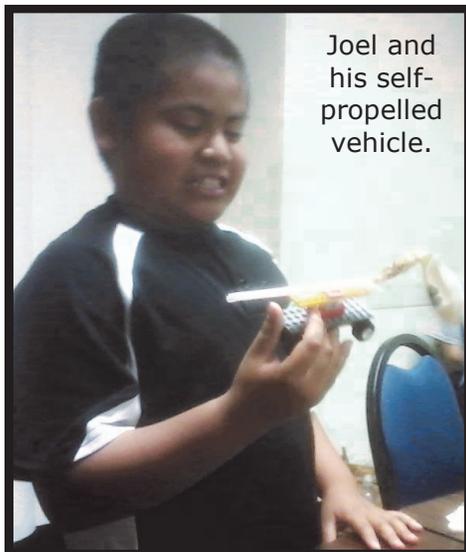

In class, we built things that represented our favorite

books. Gracy and Hannah had the same favorite but Gracy put on her thinking cap and came up with different way to represent the story.

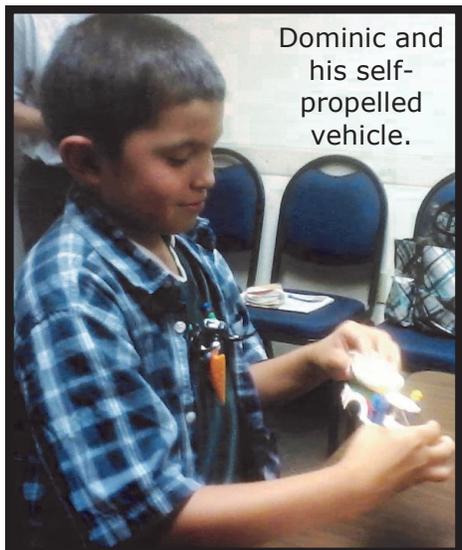

We were very happy to welcome Alex and Kate Peterson to the project meeting and are looking forward to building with them in the future!

Luke's self-propelled vehicle.

Joel and his self-propelled vehicle.

Dominic and his self-propelled vehicle.

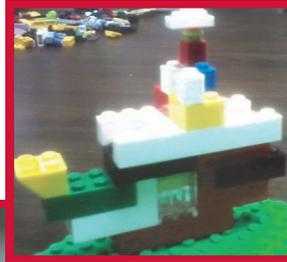

ROCKETRY OPPORTUNITY

If you love rockets or want to learn more about them, contact Craig Bowman at 715-463-2684 or 715-220-6459 or visit <http://www.wwarocketry.com/> to find out how you can get involved.

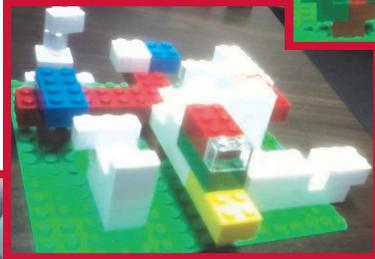

Craig's club meets the **first Sunday** of every month at noon at the Grantsburg airport. The meetings are weather dependent so be sure to call him before you go.

The club is certified and insured through the National Association of Rocketry.

LEGO PROJECT

We make LEGO sculptures about our favorite books.

Top left: Kate Peterson

Top center: Hannah Hillman's dog with food and water dishes.

Top right: Joel Hillman and his cross

Middle: Luke Lahner's WWI vehicles

Middle right: Grace Lahner and her shop

LEADERS' ASSOCIATION MINUTES

June 9, 2014

President Phil Stiemann called the meeting to order at 7:05 pm. The pledges were recited. Members present: Philip Stiemann, Sheryl Stiemann, Amy Kopecky, Heather Stahl, Sally Lahners, Marge Peterson, Adrienne Fuller, Susie Janssen, Beth Johnson, Don Strabel, Charlene Strabel, Olivia Kopecky, Allie Webster, Maiya Fuller.

Motion by Amy to approve Secretary's report as printed. Second by Marge. Motion carried. Treasurer's report was given. Motion by Amy to pay bills and approve Treasurer's report. Second by Marge. Motion carried.

Club reports:

- **Jolly Hs:** none available
- **Orange:** Had a meeting recently. They will be having a work day at Kopecky's next Tuesday to work on things like a fair booth, parade float, and other big stuff.
- **Wood Creek:** Had a meeting yesterday. We talked about a fair booth, Clothing Revue, and a 4th of July parade float. We got Honorable Mention in the Hoard's Dairymen Cattle Judging Contest!
- **Wood River Beavers:** Had a meeting in April. Had a demonstration. Served refreshments at Music in the Park in Grantsburg recently.

Extension: Camp planning is scheduled and there is a Disney theme. The summer trip is scheduled for June 28th. Beth needs to give full numbers by June 16th. Beth talked about Fall Project Day coming in October. Beth heard from the State Fair and we can send the 4x4 sign and the Kleenex monster box display. We will need to determine how to get them there. We can also send all the smaller projects. We are waiting to hear back about the

mini performances.

Old Business:

Clothing Revue—not many participants; only 3 for Clothing and none for Foods Revue. We need to think of ways to promote this activity.

New Business:

- **Burnett Dairy Days**—we got a request for help on June 20-21st. Clubs can contact them if interested in volunteering—Olivia will be there on Friday from 9 am-4 pm and Saturday from 9 am-1 pm.
- **County 4H Trip**—June 28th to Duluth, MN—We will be going to the train museum, riding the pizza train and going to the Great Lakes Aquarium for a tour and water Olympics. Cost is \$5 per person and please sign up by June 14-15th. We will meet at the Government Center at 8 am or Log Cabin Store at 8:15 am.
- **4H Centennial**—Tesora has been reserved. We are able to bring snacks, cake, etc. We can get fountain soda for \$150 for the night. The committee will need to meet soon. The committee dealing with the Centennial at the Webster fair will meet at 9 am out at the Dairy Breakfast.
- **June Dairy Breakfast**—June 14th—every club has a shift—we will be handing out promotional items.
- **National Night Out**—happening at Crooked Lake Park from 5-8 pm on August 5th. Olivia will be making a booth and the clubs will man this. Wood Creek—5-6 pm; Orange—6-7 pm; and Wood River Beaver/Jolly Hs—7-8 pm.

- **Summer Camp**—July 14-17th—need to sign contract for Lake 26 Camp use.
- **2015 Summer Intern**—Charlene made a motion to commit \$1,000 for a 2015 summer intern; second by Heather—motion carried.
- **UWRF Physics Exploration Event**—September 13th—This is an event for leaders and Jr. Leaders. Beth Greiff is interested in going. The county van could be used for transportation. More information will be coming later.
- **Fall Project Day**—will be held with Washburn County. Projected date is October 4th from 1-4 pm at Siren School. Let Beth know if you would like to lead a session by July 1.
- **Webster Fair Food Stand**—Phil had a note from Jaime about when club shifts are.
- **Sign**—Heather Stahl and family have a marquee sign that they would like to donate to the Leader's Association and all clubs. It has all letters and such, but may need new wheels for transport. The donation was gratefully accepted.

Junior Leader report: Talked about camp and training. Junior Leaders are interested in face painting and helping with tattoos at Dairy Days at the Burnett Dairy.

The next meeting will be held on July 1 at 7:00 pm in the Government Center.

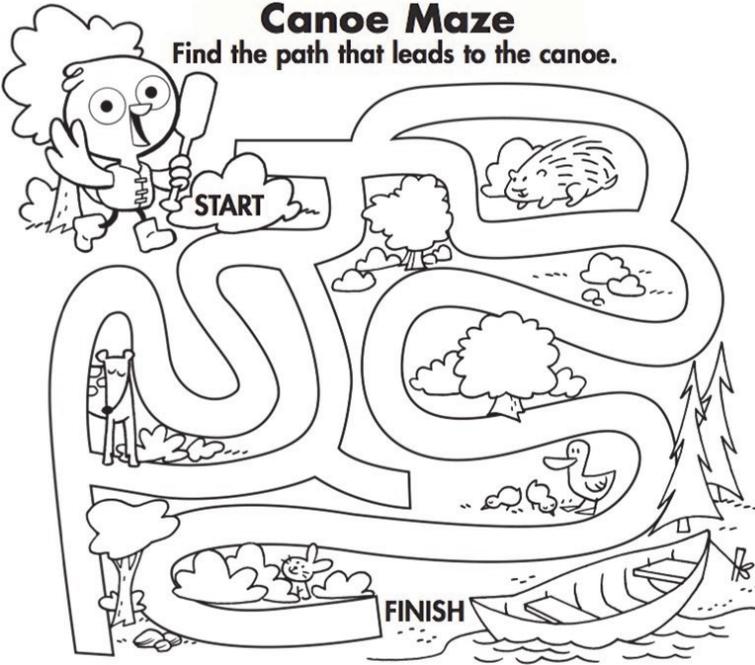

Meeting adjourned at 8:30 pm

Sheryl Stiemann, Leader's Association Secretary

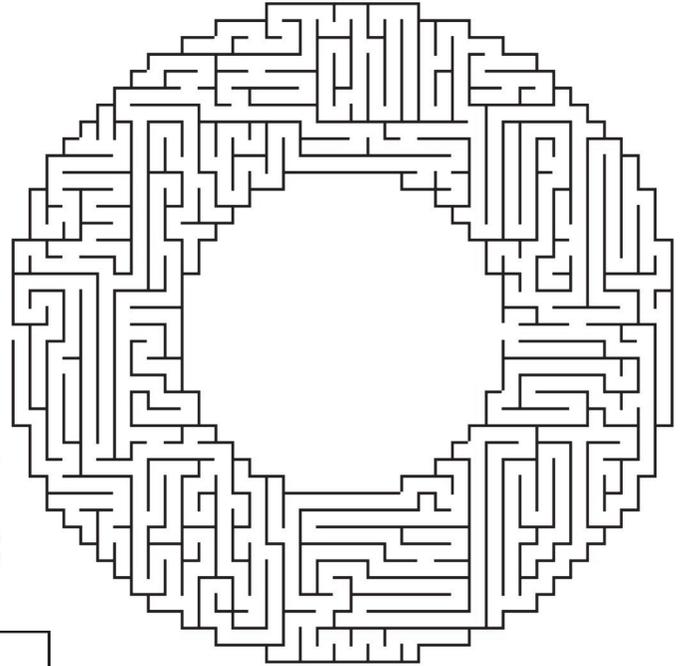

ACTIVITY PAGES

Write and illustrate a story:

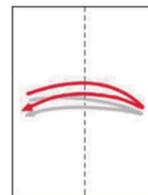

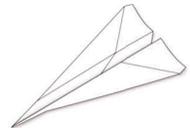

If I could take a journey on a magical train,

ROAD TRIP BINGO

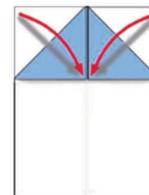

As you are driving, look for different road signs. Mark the signs you see.
The first player to get 5 spaces in a row, wins!

Basic Dart

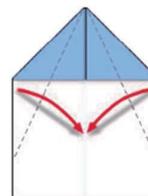

Folding Instructions

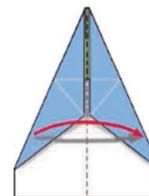

Step 1

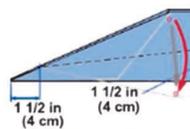

Step 2

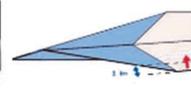

Step 3

Step 4

Step 5

Step 6

Step 1.
Use a sheet of 8 1/2-by-11 inch paper. Fold the paper in half lengthwise and run thumbnail along the fold to create it sharply. Now, unfold the paper.

Step 2
Fold down the top corners as indicated by the arrows.

Step 3
Fold the two edges toward the center line, as indicated.

Step 4.
Make a valley fold in half. Turn the plane 90 degrees as shown in figure of Step 5.

Step 5
Create a wing crease that begins at the nose as shown.

Step 6.
Form 3-dimensional shape as shown in figure. The Basic Dart is complete. Bend up the trailing edge of the wings for lift if it has a tendency to nose-dive.
